EXPERIENCE

Laravel Backend Developer
MS Global
📅 06/2023 - 09/2023   📍 Karachi, Pakistan

At this software house, I serve as a dedicated Laravel backend developer within a team of over 20 professionals. I have contributed to the successful development of more than 4 large custom websites.
- Advanced Laravel Proficiency
- Collaborative Teamwork
- Problem-Solving and Optimization

Full Stack Website Developer
Megatron General Trading LLC
📅 01/2023 - 05/2023   📍 Karachi, Pakistan

At this leading IT hardware-selling company, which has a team of 25 experts, I serve as a key full-stack website developer. I have successfully developed and managed their two main websites, contributing to the company's digital presence and growth.
- Improve my laravel skills by 70%.
- Know about how work is done in industry.
- Get to know about professional life.

PROJECTS

Multi Vendor Ecommerce Website
📅 01/2023 - 2023   📍 USA

This vibrant multi-vendor platform, hosting more than 1,000,000 products, serves as a space for numerous sellers, ensuring a seamless experience to showcase and sell their IT hardware products.
- Hosted 1M+ IT hardware products.
- Facilitated 70k+ in product sales.

Subcontractor Finder Website
📅 01/2023 - 09/2023   📍 USA & Australia

This website, operating in the USA and Australia, facilitates the connection between subcontractors and general contractors through a user-friendly zip code search feature. The platform seamlessly integrates an e-commerce store for the sale of construction products, enhancing user experience and convenience.
- Engaged a community of over 40K General Contractors.
- Attracted over 50K Subcontractors, with anticipated revenue generation in the thousands through the integrated e-commerce store.
